Yes, I am good with BC review by COB today if you're comfortable with sending it by then. As always, let me know if you need anything more from me on this!

Of course! I have no problem conveying the message. Based on the agenda, it could be a brief discussion. You are right; I think BEAD won't have much to contribute. If BEAD is asked questions, my guess is that the burden is on Mark and Lindsey with use and usage. BAB has been done for some time 😊 I plan to take notes to write a weekly, so you should get a relatively quick update!

Thanks for working in the memo! I am addressing the uncertainty related questions. The responses take a lot of my remote access memory, and I can only handle responding to these questions first thing in the morning. Based on this discussion, it sounds as if you are okay with BC review by COB today. Maybe, if you wouldn't mind, please confirm that with me, especially after you read the email that I just sent a few minutes ago.

Rebecca

Hey Rebecca,

Just to let you know – I'm going to need to pop out at 9:30 for a huddle... it doesn't look like this meeting will need a lot from us (if anything...) but if something does come up while I'm "out of the room" please pass it on!

Thanks!

Jeana

P.S: This was going to be where I was going to apologize for not looking at the EFED memo yet... and then I opened it and went ahead and did it. Added GDD explanation in two places and resolved a few comments. Not sure how to address the comments about chill hours/uncertainties with the data etc though.

Subject: Aldicarb team meeting

When: Wednesday, September 2, 2020 9:00 AM-10:00 AM (UTC-05:00) Eastern Time (US & Canada).

Where: Microsoft Teams Meeting

Hi Team,

Below is a very brief agenda for the call tomorrow. I'm hoping we can all get caught up and discuss any data needs, etc., as we move forward with the action.

Thanks.

Debra

Agenda:

1. Recap
2. Current status: EFED to explore new water modeling
3. Expected timeline
